We are also delighted to welcome 'Liverpool Fairytale' and community-made film *Under the Mud* to the Block Booking Scheme. The film was greatly enjoyed at the 2007 National Conference with an introduction and Q&A with producer Sol Papadopoulos, young writers and cast members. After 2 years of finalising music clearances the film is now available for community screenings. The script for this terrific comedy emerged from a screenwriting project in a deprived area of Liverpool and was create by young people who had never written before. A real community endeavour.
